

***power engineers (gujarat)***

**AUTHORISED DEALER FOR**

***Atlas Copco***

# Our Core Values

*Interaction*

*Commitment*

*Innovation*

**FIRST IN MIND - FIRST IN CHOICE**

# Product Range

**SCREW AIR  
COMPRESSOR**

**AIR DRYER**

**NITROGEN GENERATOR**

**VACCUM PUMP**

**LINE FILTERS**

**AIR NET**

# Model : GX / G

- Motor : 2 kw to 15 kw
- Flow : 4 l/s to 32 l/s

# Model : GAe

- Motor : 11 kw to 30 kw
- Flow : 33 l/s to 80 l/s

# Model : GA

- Motor : 30 kw to 90 kw
- Flow : 99 l/s to 281 l/s

# Model : GA VSD+

- Industry-leading performance:
  - Leap in Free Air Delivery
  - New standard in Specific Energy Requirement
- Absolute low in noise levels
- Smart design
- Proven reliability
- Standardization: one solution to our customers' needs

# 100% OIL FREE AIR COMPRESSOR

# LOW PRESSURE SCREW BLOWER

100% OIL FREE AIR

- Flow : 320 to 2300 M3/Hr
- Pressure : 0.3 to 1.0 bar

# VSD+

How we create superior customer value whilst contributing to society and environment

Atlas Copco pioneered the VSD in 1994.  
In 2013, VSD+ sets a new benchmark.

## Proven reliability

- ▶ Endurance units running since 2009:
  - ▶ More than 25 endurance units running before launching.
  - ▶ Units with > 120.000 starts/stops
  - ▶ Units with > 20.000 running hours
- ▶ IP66 Drive train, Deep oil-cooled top motor bearing

## Industry-leading performance

- ▶ Leap in Free Air Delivery: +12%
- ▶ Setting a new standard in Specific Energy Requirement: Savings of on average 50% compared to idling compressors (Fixed Speed compressors).
- ▶ No unloader, element remains under pressure, the system is not blown-off, no loss of energy.

## Variable Speed technology most efficient as base load compressor and as top load compressor

- ▶ GA VSD+: Variable Speed Driven machine that is more efficient as Fixed Speed compressors even at full load.

## Superior technology

- ▶ Oil-cooled Atlas Copco Interior Permanent Magnet Motor
- ▶ In-house designed
- ▶ Super efficient fan (ERP 2015)

## Absolute low in noise levels: 62 dB(A)

## Smart design for easy installation, use and maintenance

Integrated dryer available

## Small footprint: -55%

### Atlas Copco Compressor Technique
